It's All In Your Head (Behavioral Economics)

Maine Conference 2022

The Plan

- A definition
- Four games
- A peek at the Behavioral Economics unit

A Definition

Behavioral economics combines elements of economics and psychology to understand how and why people behave the way they do in the real world. It differs from neoclassical economics, which assumes that most people have well-defined preferences and make well-informed, self-interested decisions based on those preferences.

Shaped by the field-defining work of University of Chicago scholar and Nobel laureate Richard Thaler, behavioral economics examines the differences between what people “should” do and what they actually do and the consequences of those actions.

The background of the slide is a dense, repeating pattern of US dollar bills, including \$100 and \$20 bills, rendered in a light blue color. The bills are arranged in a way that creates a sense of depth and texture, with some bills appearing to be stacked or overlapping.

QUESTION OF THE DAY

Consumer Skills

What are the most popular "tricks" that shopping websites use to get us to buy more?

[View blog post](#)

A:

Number of instances by categories of dark patterns

Scarcity (Low-stock/high-demand message)

679

Urgency (Countdown timer)

481

Social proof (Testimonials)

325

Misdirection (Confirmshaming)

270

Obstruction (Hard to cancel)

31

Sneaking (Hidden costs)

26

Forced action (Coerced enrollment)

6

Note: Examples are provided in parentheses.

Consumer Skills

FOLLOW-UP QUESTIONS

1. Which of the following tactics have you seen on websites?
2. Which of the top three "tricks" has the greatest impact on your behavior? Why?
 - a. Running out of the product..only 3 left in stock
 - b. Flash sale only available for the next hour
 - c. A celebrity you follow loves this product too...
3. Why do you think these tactics are so effective at getting us to buy more?

Dark Patterns

What's the range?

Provide a range of values that you are 90% certain will include the correct answer

What's the range?

Number of continents?

What's the range?

What year was the first gif created?

What's the range?

Percentage of total U.S. retail sales that are done online?

What's the range?

Number of stocks traded on the
New York Stock Exchange?

What's the range?

Market value of all
cryptocurrencies?

Answers

1. Number of continents (Low to High): **7**
 - Asia, Africa, North America, South America, Antarctica, Europe, and Australia
 - Source: [Brittanica](#)
2. What year was the first gif created? **1987**
 - Steven Wilhite created the GIF file format in 1987 while he was at CompuServe.
 - Source: [NPR](#)
3. Percentage of total U.S. retail sales that are done online? **19%**
 - Source: [Digital Commerce 360](#)
4. Number of stocks traded on the New York Stock Exchange? **Around 2400**
 - Source: [NYSE](#)
5. Market value of all cryptocurrencies (as of 5/2022): **\$1.24 trillion**

Brain Games: Overconfidence Effect

The background of the slide is a dense, overlapping pattern of US dollar bills, rendered in a monochromatic blue color. The bills are shown in various orientations, some partially obscured by others, creating a sense of depth and texture. The central text is white and stands out prominently against this blue background.

What's the rule?

Three number sequence

X, X, X

I'm going to give you a 3 number sequence. I have a rule in mind that these three numbers obey and I want you to try and figure out what that rule is.

The way you get information is by proposing your own set of three numbers to which I will say yes it follows my rule or no it doesn't follow my rule. Then you can propose what you think my rule is.

And the numbers are...

2, 4, 8

Now, come up with your own set of three numbers

The most common cognitive bias

What exactly is confirmation bias?

The background of the slide features a dense, overlapping pattern of rolled-up US dollar bills. The bills are shown in various orientations, creating a sense of depth and movement. The entire image is overlaid with a semi-transparent blue filter, which makes the white text stand out prominently.

Roll With the Market

The Playing Board

Round	Starting Balance	IN/OUT of Market	One die roll	Market up/Down	3 dice roll	If OUT, Add +1	Ending Balance
1	100						
2							
3							
4							
5							
6							
7							
8							
9							
10							

The Rules

- Start with \$100 fictional account balance
- Each round: Are you in/out?
 - If out, you get +1
- If in, roll one die first...
 - 1 or 2: Market decline
 - 3, 4, 5, 6: Market increase
- Then second roll is the return: roll 3 dice

Are You Ready?

Reflection

- Describe the range of emotions you experienced as you played the game.
- What had an impact on the strategy that you used?
 - How your peers were doing?
 - What the recent trend in the market had been?
 - The goals you set before you started playing the game?
 - How many rounds were left in the game?
- What did you learn about yourself and your your risk tolerance with this game?

What does this have to do with investing?

- Loss Aversion
- Regret
- Recency effect
- Risk tolerance
- Market timing
- Cheating

The background of the image consists of a dense, overlapping pattern of US dollar bills, primarily \$100 bills, rendered in a monochromatic blue color. The bills are shown in various orientations, some partially obscured by others, creating a sense of depth and abundance. The text "Time to Explore" is centered over this background in a white, bold, sans-serif font.
