Conference Playbook

One thing I could use this week in my classroom from NGPF...

One thing I want to look into on the NGPF website is...

One thing I want to look into about my own finances is...

One thing I want to check into from the peer session is...

One thing I want to check into from the breakout session is...

One thing I want to learn more about is...

Session Information

8:50-9:50 NGPF with Tim Ranzetta

Gains: Innovative Approaches to Teaching Investing for the Long Term

Aug/Cap/Pine

This session will introduce you to interactive tools to teach long-term investing concepts effectively. Participants will explore 5 NGPF resources including "Roll With The Market" and "Stax," which simulate real market dynamics and investment strategies through engaging games and lessons. The goal is to make learning about investing both enjoyable and informative, thereby enhancing students' understanding of financial markets and investment principles.

10:40-11:50 Breakout Sessions

A Roadmap to Retirement Success with Jeff Delisle from Horace Mann

During this session, you will learn invaluable insights and strategies for securing your financial future through effective retirement planning. Discover practical steps to navigate the path towards your retirement with confidence.

Life in the FAFSA Lane: College Affordability and Return on Investment with Mila Tappan, College Access and Outreach Manager, FAME

During this session, you'll learn the latest on the Better FAFSA, along with ways to help your high school students navigate the financial aid process and evaluate the return on investment of higher education.

Junior Achievement Partnerships to Enhance ELO, Career Badge, and Apprenticeship Experiences with Jill Jamison, Vice President, JA of Maine and Caryn Coleman, Program Manager, JA of Maine

Workforce attraction and experiential learning can start in a K-12 classroom! Join Junior Achievement of Maine (JA) in a lively discussion on how to prepare students for Maine's future workforce through real-world, mentor driven experiences. Participants will learn how to partner with JA to enhance their existing curriculum to engage students in career exploration and long-term career aspirations. Emphasis will be on high school experiences and the session will provide action steps to implement powerful partnerships in the classroom and beyond.

Teaching Financial Decision-Making with Claim Your Future® with Mary Dyer, FAME Financial Education Programs Manager and ME J\$ President

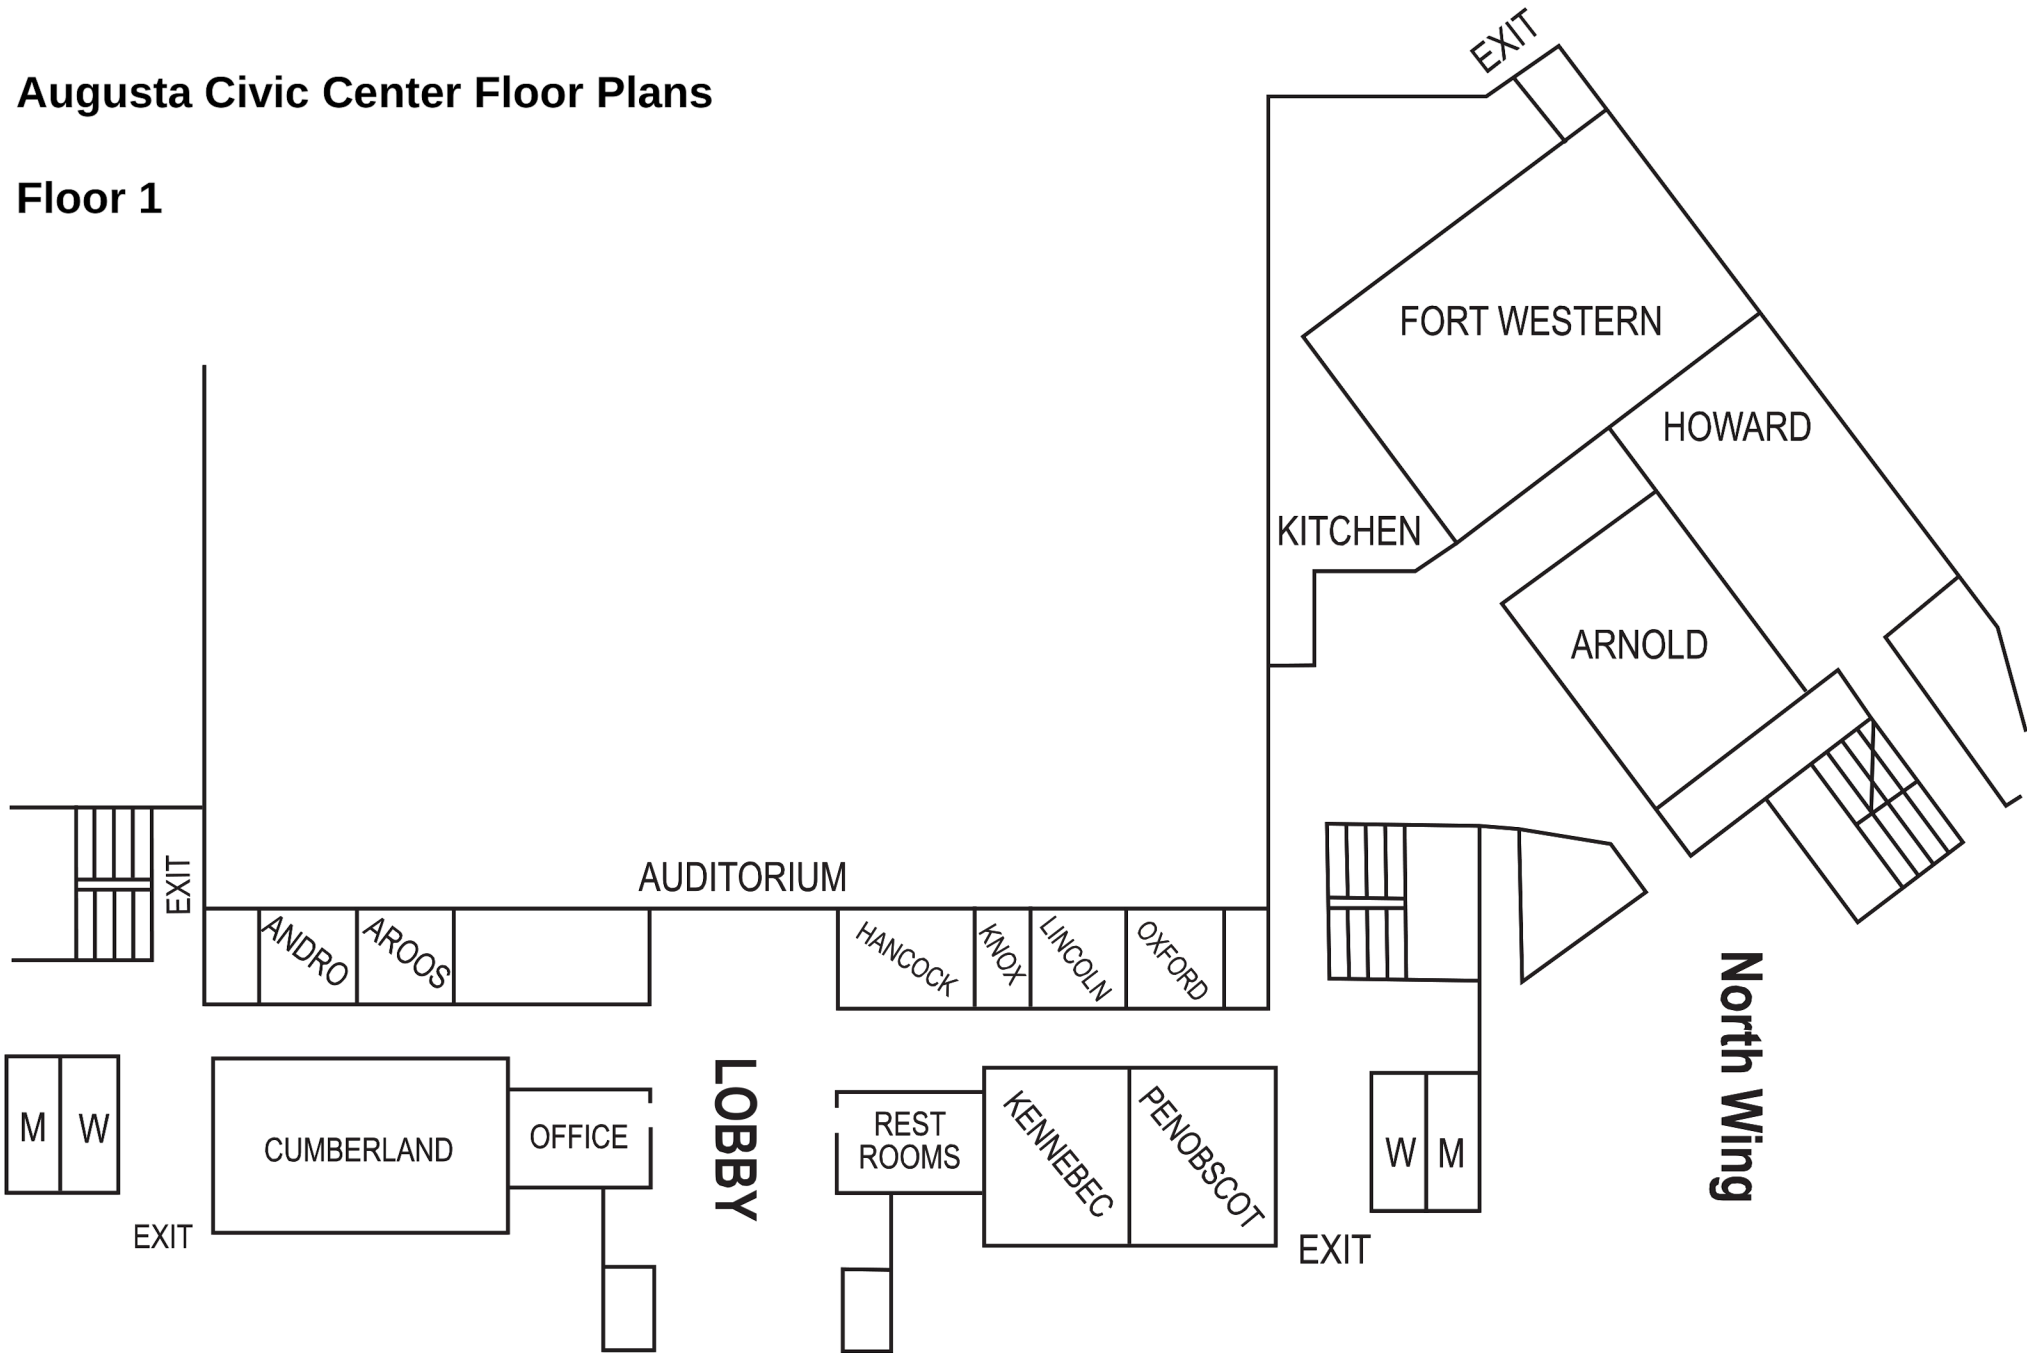

Claim Your Future is a free classroom and online program from FAME that encourages students in middle school (or younger), high school, and beyond to explore the return on investment of various career pathways and financial decision-making. During this session, we will provide an overview of Claim Your Future, including a step-by-step lesson plan, and implementation strategies for bringing the program to life. We will also provide a demo of recent enhancements and updates.
